Experienced Senior UI Developer with 9 years of expertise in building high-performance web applications using **React**.

SKILLS

Programming Languages	Javascript(ES6),Typescript,Dart
Web Technologies	React,Nestjs,Vitest, Rest Apis, Webpack, TailwindCss, Rushjs

WORK EXPERIENCE

Project Leader Ionixx Technologies	Dec 2021 - Present <i>Bangalore,India</i>
--	--

- Developed a reusable system of react components called **nexus ui library**.
- Led the migration of legacy ibor projects to **NextGen-ibor projects** using react and vite.
- Used **React Hook Form** for robust form validation and management.
- Managed the state efficiently in enterprise-grade applications using **Jotai**.
- Worked with monorepos using **Rush.js**, optimizing workflows for React and Vite-based applications.
- Used **TeamCity** to automate deployments to **development and QA environments**.
- Designed and developed **reusable UI components** using **Tailwind CSS**.
- Implemented **server-side pagination** in AG Grid to enhance **performance**.
- React,Nextjs,Javascript,Typescript,Contentful,Vite,TailwindCSS,Ag-grid,Chartjs,Rushjs

Senior Software Engineer Dew Solutions	April 2021 - Dec 2021 <i>New Delhi, India</i>
--	--

- Implemented **Angular Forms** for robust data validation, ensuring accuracy and reliability in user input.
- Facilitated technical discussions with the development team to determine the optimal tech stack, selecting **Angular 12** as the primary front-end framework.
- Utilized Angular Core Features, including **routing** and **reactive programming** (RxJS) and **interceptors**.
- Worked on migrating the legacy iTradeNetwork **B2B interface** to angular.
- Angular 12,bootstrap

Software Engineer Wipro Technologies	Sep 2015 - April 2021 <i>New Delhi, India</i>
--	--

- Implemented **Free Baggage Allowance Module** to enhance user experience by providing clear and dynamic baggage information.
- Contributed to the **Galaxy Design System** by developing reusable and commonly used UI components, ensuring consistency across projects.
- Worked on **angular 12** as the primary frontend framework for galaxy.

EDUCATION

Master of Technology(Computer Science), Bits Pilani	2015-2019
Bachelor of Computer Applications, IP University	2012 - 2015
